

Gateway Youth Programs

2015 Annual PREA report

During the reporting period the Gateway Rehab Youth Programs initiated the PREA compliance process. It went into effect in March of 2015. Each facility worked on PREA compliance issues & our YES program became PREA compliant in September after successfully completing an audit by a DOJ certified auditor. Leading up to this process the site was overseen by the PREA compliance manager & the PREA agency coordinator. Efforts were made on a continual basis to upgrade monitoring, staff & resident education, signage, & incident reporting & follow-up.

Our goal for the upcoming year is to successfully complete a PREA audit of our Liberty Station facility while continuing the process of monitoring & preparing for the next audit cycle in 2017.
